

THANGARAJA MANOHASAN

WEB DEVELOPER / SOFTWARE DEVELOPER

Talawakelle | +94 75 562 7129 | donalmano2743@gmail.com

SUMMARY

Entry-level Web Developer and Software Developer with an HNDIT undergraduate background and NVQ Level 4 qualification in Information and Communication Technology Technician (ICTT). Skilled in HTML5, CSS3, JavaScript, C#, Windows Forms, MySQL, responsive web development, object-oriented programming, hardware troubleshooting, and basic networking. Experienced in developing academic and personal projects involving web applications, student management systems, attendance systems, tourism management, and database-driven applications. Strong problem-solving and technical support abilities with a practical approach to software development and IT operations. Seeking an opportunity to contribute to a professional IT team while developing expertise in modern web and software development.

PROJECTS

Tourism Management System - PHP + MYSQL

- Tourism Management System: Developed a user-friendly Tourism Management System to manage tour packages, customer bookings, and travel information efficiently. The system streamlines reservation management, maintains customer records, and improves overall operational efficiency through an intuitive interface.

Portfolio Website - React + Typescript

- A modern and responsive personal portfolio website built using React and TypeScript to showcase my skills, projects, education, experience, and professional profile. The website features a clean, user-friendly interface with responsive design and smooth navigation across different devices.

Student QR Code Attendance System - HTML + CSS + JS

- Student QR Code Attendance System: Developed a QR Code-based attendance system to automate student attendance tracking. The system enables fast and accurate attendance recording through QR code scanning while providing a simple and user-friendly interface.
